

A Full-Spectrum Prostate Solution

Prostate 360® is a potent, all-in-one natural supplement that supports prostate health. Prostate 360® also supports normal urine flow and sexual function.

The two proven ingredients, USPlus® Saw Palmetto extract & Tomato Lycopene work together to support normal prostate function. Prostate 360® also contains Cranberol® Cranberry Extract and Pumpkin Seed Extract that deliver phytosterols that are proven to promote healthy testosterone levels and support prostate function.

The Valensa Difference

- Prostate 360® leverages capsule-in-capsule technology to maximize its overall stability & effectiveness. It achieves this by keeping the Saw Palmetto & Lycopene separated until they reach the intestine for absorption.
- Most Saw Palmetto products in the market offer ineffective dose and poor quality supplements. Valensa's USPlus® Saw Palmetto extract meets the USP monograph and ensures efficacy.

Key Features

- ✓ Prostate 360® is safe, highly absorbable product used to support prostate health, relieve urination issues and support testosterone levels.
- ✓ Derived from wild harvest Florida-grown Saw Palmetto berries and manufactured using a patented, solvent-free CO2 extraction process.
- ✓ Contains Tomato Lycopene, Cranberry Seed Extract and Pumpkin Seed Oil, which is high in phytosterols to promote overall prostate health.
- ✓ Capsule-in-Capsule Technology is used to maximize delivery and absorption of nutrients to the body.

Applications

- Prostate Health for Men
- Testosterone Health
